Second: Mike

Question on the motion: All Aye

None of the shares from Spring City Ranches will be transferred and assigned to property until a plan is received from Larrey Seth Wright laying out how the irrigable acres and shares will be assigned. If the property owners want the shares in their name as unallocated Class A shares, they can do that, but they will pay an additional \$35 if they later want to change them to a well certificate and they can meet all the company policies at that time.

Motion to approve: Mike

Second: Cody Question on the motion: All Aye

4. **Minutes:** Motion to accept the minutes from the previous meeting: Chad Second: Matt  
Question on the motion: All Aye
5. **Freeman Allred property lease:** Niel Sorensen is interested in leasing the Freeman Allred property year-to-year until the Freeman Allred project is ready to start. It borders his property so it's convenient for him to feed his herd on it before heading up the canyon. There isn't much feed so the board felt like \$200 per year would be fair. Mike motioned the company lease the property on a year-to-year basis for \$200 a year to the Sorensen Farm. Second: Cody Question on the motion All Aye
6. **Subdivision challenges:** Randy has some concerns with the irrigation line on the west side of the new Crawford circle subdivision. They tied into the main line, even though Ken told them not to, and broke it in two places in the process. Randy wants a written agreement from the developer that they are responsible for the new line addition and the company will not be responsible for anything past the valve. He wants to make sure each lot owner knows the company will not be held responsible for the private line the developer added.
7. **NRCS PL566 grant status:** Randy got a letter from the state conservationist and the person at the national level has officially signed the Environmental Assessment. They are moving into approving the design funding process now.
8. **65-3369 Johnson Ditch water rights update:** Randy previously discussed the discrepancy of this water right. Randy has been researching this water right going back over 100 years. He's confident of the paper trail and thinks he can prove to the state that Horseshoe Irrigation has about 100 acre-feet more than what the state is showing.
9. **2025 FY audit and reports:** The board asked Randy to complete the fiscal year audit and reports.
10. **2026 annual meeting:**
  - a. **Date: February 19, 2026**
  - b. **Agenda:** Randy asked the board members to let him know if there's something specific, they want addressed.
  - c. **Election:** Chad, Scott, and Mike are up for election this year.
11. **Open Discussion items:**
  - a. **Stephen Sloan:** Randy made the board aware of an issue with Jenna Broadbent and Stephen Sloan. The board reviewed emails between Kristy and Jenna Broadbent and Marta Sloan. The board decided that if Jenna Broadbent tries to sell the two shares she already sold to the Sloans, the board would not approve the transfer without consulting the company attorney about the dispute.
  - b. **Cody:** The state asked Sanpete County to submit a document showing how they're going to reduce their water use by 20% by 2030. Randy said he can come to the county and help address this if they would like his help.
